

## CLA 201 H1S - UNIT 7

bacca = berry, e.g. baccivorous

**baculum/baculus = rod, bacillum/bacillus = small rod**

**(p 78 #7 < \*baculillus) — rod-shaped bacterium**

**cf. GK bakterion p 153**

barba = beard, e.g. barber

**bibere = drink, e.g. imbibe, bibulous**

**bilis = bile, e.g. bilirubin < ruber = red**

**\*\*bona/bonus/bonum = good, e.g. bonus, summum bonum**

**brevis = short, ENG brief, brevity, abbreviation**

**bucca = cheek, e.g. buccolingual (cf. os/oris = mouth)**

**bullire/bullitum = to bubble or boil, bulla = bubble, blister**

**bursa GK (p 155) = ox-hide, bag, e.g. bursar**

**cadere/casum — cid- = fall, caducus/a/um = falling**

**e.g. coincident, deciduous, casual, cadaver**

**ENG case = event < LAT casus, ENG case = box < LAT capsula**

**caecus/a/um = blind, e.g. caecum or cecum**

**caedere/caesum — cid-, cis- = cut, kill**

**e.g. incisor, algicide, decision, circumcision, caesura**

**calere = be warm, calor = heat (p 77 bot # 5 QCS)**

**calory/calorie (-y < Fr -ie < Lat -ia p 77 # bot QCS)**

**callum = hard skin, e.g. callous**

calx/calcis = heel, e.g. recalcitrant, calcarine

**calx/calcis = limestone, e.g. Ca, calculus,  
calculator, calcify**

canalis = canal, channel

**cancer/cancris = crab, e.g. cancer, chancre**

**candere = shine, candidus = bright, white  
e.g. incandescent, candid, candidate "made white"!**

canis = dog, e.g. canine

**capere/captum, cip-, cept- = take**

**e.g. concept, inception, contraception, receptive,  
susceptible, recipe, capable, capacity**

**capillus = hair, e.g. capillary**

**capsa = box, e.g. capsule**

**caput/capitis, cep-, cip- = head**

**e.g. biceps, decapitation, capital, capitalism**

**carbo/carbonis = coal, e.g. C, bicarbonate**

caries = decay

**caro/carnis = flesh, e.g. carnal, incarnation**

cartilago/cartilaginis = cartilage

caseus = cheese, e.g. casein

catena = chain, e.g. concatenate

cauda = tail, e.g. caudad

caulis = stalk, e.g. cauliflower

**cavus/a/um = hollow, e.g. cave, concave, excavation**

**cedere/cessum = go, e.g. antecedent, abscess,**

**intercede, accede, success, recess, proceed**

**cella = room, e.g. cellular, cellulose**

**cerebrum = brain, e.g. cerebellum, cerebral**

**cernere/cretum = separate, e.g. discrete, excrete**

**cervix/cervicis = neck (uteri / capitis), e.g. cervical**

**cilium = eyelid, e.g. supercilious**

**cingere/cinctum = surround, e.g. cincture**

**citare/citatum = rouse, e.g. incite, excite,**

**recitation, resuscitation**

**claudere/clausum, clus- = shut, e.g. conclude,**

**ex- pre- include, occlusion, claustrophobia**

**clavis = key — collarbone, e.g. clavicle, F, f**

**colere/cultum = till or cultivate (a field)**

**e.g. agriculture, cult, culture**

**columen/columnis = column**

**coquere/coctum = cook, e.g. concoct**

**copula = bond, join, e.g. copulate**

**cor/cordis = heart, e.g. cordial**

**cornu = horn, e.g. cornea**
